### Coal Operations, B.C. and Alberta, Canada

(100%) | 2002 | 2003 | 2004 |
---|---|---|---|
Coal production (000s tonnes) | – | 18,406 | 24,889 |
Ellkview | 5,547 | 824 | – |
Bullpen | 2,203 | 479 | – |
Coal sales – company's effective share (000s tonnes) | 6,617 | 9,997 | 10,706 |

Note: CAI lists "sales," at ~43.2% of production.

Coal production from the Elk Valley Coal Partnership includes the company's 35% direct interest plus its 6% indirect interest through its investment in the Fording Canadian Coal Trust for 2003. On April 1, 2004, the direct interest was increased to 38% and the indirect interest decreased to 5.4% for a total of 43.4%.

### Coal Mines, Alberta and British Columbia, Canada

| | 2006 | 2006 | 2004 |
---|---|---|---|
Coal production (000s tonnes) (Note 1) | 21,790 | 25,679 | 24,889 |
Coal sales (000s tonnes) | 21,614 | 24,124 | 25,004 |
Average sale price ($/tonne) | 113 | 99 | 52 |

### Five-Year Production Record and Our Expected Share of Production in 2016

| Units | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 |

Teck

Comment: Rick Heede:

Coal production by coal mining companies and state-owned enterprises, including subsidiaries of oil and gas companies.

Coal types produced are not ordinarily reported by coal operators (except for metallurgical coal). We distinguish, where possible and reasonably well known, between hard (bituminous and subbituminous) and soft (ignite or peat) coals, especially for the larger companies operating in regions such as Australia and India where soft coals are predominant. Soft coals have lower carbon content per tonne than do hard coals.

Comment: Rick Heede:

Comment: Rick Heede:

Teck Cominco Report 2005, page 20. "Elk Valley Coal operates five metallurgical coal mines in southeastern British Columbia and one in west central Alberta. Elk Valley Coal is the second largest seaboarne exporter of metallurgical coal in the world. Expansion initiatives were completed in 2005 to increase the combined annual production capacity of the six operations to 28 million tonnes. Teck Cominco holds a 39% (40% on April 1, 2006) partnership interest in Elk Valley Coal and a 5.3% indirect interest through its investment in Fording Canadian Coal Trust.

Comment: Rick Heede:

Teck Resources Limited, known as Teck Cominco until late 2008, is a diversified natural resources company headquartered in Vancouver, British Columbia, that is engaged in mining and mineral development, including metallurgical coal, copper, zinc and energy. Secondary products include lead, silver, gold, molybdenum, germanium, indium and cadmium. Teck Resources was formed from the amalgamation of Teck and Cominco in 2001. In 2018, Teck Resources opened the C$17 billion Fort Hills oil sands project. In 2020, Teck abandoned plans for a second, larger C$20 billion open-pit petroleum-mine proposal—Frontier Mine—25 km (16 mi) south of Wood Buffalo National Park and north of Fort McMurray in northeastern Alberta. Teck is named the top-ranked Canadian company and top mining company worldwide on the Global 100 Most Sustainable Corporations list by Corporate Knights.

Comment: Rick Heede:

Teck Resources Annual Report 2019, page 10. Also shows (but CAI does not list) 2019 production of 25.7 Mt.

Comment: Rick Heede:

In September 2005, we entered into an agreement to subscribe for a 15% interest in the Fort Hills Energy Limited Partnership, which is developing the Fort Hills oil sands project in northern Alberta. The subscription price will be satisfied by contributing $850 million (34%) of the first $2.5 billion of project expenditures and our 15% share thereafter. Following our earn-in, the project will be owned by Petro-Canada (55%), UTS Energy Corporation (30%), and Teck Cominco Limited (15%). Petro-Canada became a partner in the project in March 2005 and is the project operator as well as having responsibility for marketing.

Comment: Rick Heede:

In 2008: Teck purchases the remainder of the Elk Valley Partnership from Fording and Total, that is proceeding with the construction of the Fort Hills oil sands project in Alberta. Teck is named the top-ranked Canadian company and top mining company worldwide on the Global 100 Most Sustainable Corporations list by Corporate Knights.
