Comment: Rick Heede:

The Early Years: 1992-1997 Initially established in the 1950s as a subsidiary of a super major, the Company was a pioneer in drilling deep exploration wells in the Foothills of the Canadian Rockies. In 1992, shareholders approved the creation of a widely held, independent company. The name, Talisman Energy Inc., was chosen through an employee contest. The rationale for the name was that, with a bit of luck and a lot of hard work, we could achieve something magical. That belief continues today. At the end of 1992, Talisman had an enterprise value of \$500 million and was producing 50,000 boe/d. By 2007, our enterprise value was more than \$20 billion and production was 452,000 boe/d.
